Push on the Column.
The Green township Garfield and Arthur Club will meet at the Town House next Saturday evening at 7 o'clock. Will be addressed by W. H. C. Ecker, Esq., and Hon. JOHN W. MCCORMICK. Everybody invited.

A lot of long visaged Democrats assembled at Columbus, Saturday, with the purpose we suppose of confounding with each other over the loss of the Post Office. Among them was John Vance. The Cincinnati Enquirer reports him as follows:

Hon. John L. Vance, of Gallipolis, says that they will be able to cut down the Republican majority at least two hundred in that county. He says there were not less than twelve hundred negroes voted in Gallia, and in one township four Democratic Judges and managers were bought outright.

This "bought outright" business, we doubt not, refers to Guyton township. John L. Vance charges that the "four Democratic Judges and managers," in that township, have committed a criminal act—a penitentiary offense. What have the said Judges to say to this very serious charge. Are you guilty? If Vance believes what he charges we shall expect him to appear before the Grand Jury and make it known.

The balance of the extract is mere brag.

Railroad.
The members of the construction firm—Miller, Thomas & Co.—and the Directors of the road, including President M. M. Green, came through in a special car Friday, and spent some hours in the city. Among other matters attended to was the turning over of the completed road, by the builders, to the Railway Company. Between Gallipolis and Logan, therefore, the road is now in the hands of the Railroad Company.

Teachers' Examination.
At the last regular meeting of the County Board of Examiners held Saturday, Oct. 16th, 1880, the following were granted certificates:

Harper's Magazine for November—concluding the sixty-first volume—is, probably, taken as a whole, the most beautiful Number ever issued. Every parlor should possess a copy.

The people of Gallipolis are still depicted with the idea that they will bridge the Ohio at Gallipolis Island and run their road up the lower side of Kanawha and connect with the C. & O. road. They seem to forget that the Ohio river and its islands belong to West Virginia.—P. Pleasant Register.

And you seem to forget that this is a Nation, and that the rivers are National highways, and that their bridging is controlled by National enactment. Even the Kanawha river is being dammed and locked by National authority. The resolutions of '98 have no force except in Democratic platforms.

A young man from Gallipolis imbibed too much of the "ardent," Saturday night, and becoming very noisy, he was asked to desist by a policeman, but this request made him more and more noisy. Result, he went to jail.—P. Pleasant Register.

He was a Democrat and had just heard from Guyton township.

The case of Ohio vs. D. Boone Dailey, assault, was tried before Squire Dameron on Friday. Dailey plead guilty and was sentenced to the penitentiary for 30 days.

This was a rare-draw, unprovoked assault on Greenbury Weaver, an innocent man. Dailey acknowledged this fact in an honest way and claimed clemency from the Court.

The father of our quiet friend, Graves Hubbard, was elected Sheriff of Kanawha county, W. Va.

Those illegal votes mentioned as being cast in the First Ward are likely to cost dearly. Wm. Haanaford, one of the illegal voters, was arrested on election day, tried before Squire Dameron and now lies in jail awaiting the action of the Grand Jury. From the evidence we are not inclined to blame this poor ignorant man, so much as those who were guilty in "compelling" him to vote.

Republican eagles are getting fat on Democratic roosters.

Those Democratic jumpers from the East—Crook, Eccles and others—are afraid to go home. The therefore is stated by the Columbus correspondent of the Cincinnati Commercial.

They were so confident they would carry both Ohio and Indiana that they telegraphed friends in the East to bet all the money they could get hold of on the Democrats. At midnight last night, when it was learned for sure that Ohio had gone Republican by a large majority, they believed that the Democrats were still all right, and they telegraphed their friends in the East to get even on Ohio by betting more on Indiana. To-day they have been getting dispirited, and their friends telling them to prepare to occupy the first carriage in a first-class funeral, when they get home.

Brush Meeting.

Thinking items from this part of the county would be read with some interest by few of the many patrons who peruse the columns, we attempt to give a few, although prior to this we were laboring under the discouraging impression that the waste basket awaited the arrival of our manuscript. Where education is neglected superstition is one of the results. This may be attributed to some of the citizens of our community, but nevertheless if they are slightly behind in educational interests they are social, generous, kind hearted, and with but few exceptions, law abiding, and are beginning to look at education as a matter of interest and duty. Fall schools have commenced in all the neighboring districts. R. P. Roach is teaching at the Brush District. Mr. Roach having a prepossessing appearance, a commanding look and tone, has but little use for the rod. Chas. Bemas is meeting with success at the Kountz District.

A. W. Kling at the Ebenezer District seems to fill the bill, and Miss R. Wickline at the Holcomb District is meeting with success. We do admire her methods of teaching. Great interest has been manifested here by the youngsters during the past year in vocal music; but if the observer would attend some of their "singing" at "Cat Guts" concerts, which are held frequently, he would not be so much surprised to find them "singing" into their toes. The object of most is amusement, but the object of some may be better expressed by the poem:

"Wintry days are coming on,
The cold and stormy weather,
But what's the use to go alone
When two can go together."

The New Congress.

The election of eight Congressmen by the Republicans of Indiana and fifteen from Ohio, with a previous gain of one in Vermont and one in Oregon, leaves a little room to doubt that the Republicans will control in the forty-seventh Congress. To secure this it will be necessary to gain only three votes more, and the tidal wave set in motion last Tuesday will more than insure these. Thirty-three States will choose Representatives at the time of the Presidential election.

At Little Rock, Friday night, a severe storm of wind, rain and hail prevailed, doing a good deal of damage to window glass. Cooper & Jackson's Circus and Menagerie were exhibiting at Augusta, on the north side of the river, opposite Little Rock. The canvas was blown down, and turned over a carriage containing a lion and a lioness. A lighted torch fell against the cage, and so terrified the animals that they shattered the cage and made their escape, flying over the heads of the affrighted multitude, mostly negroes, and an indescribable scene of fright, confusion and uproar of beasts and humans ensued. The lions disappeared without injuring any one. Shortly afterward two men discovered their whereabouts and reported to the show people. The cage was patched up and moved to where they were crouched against a fence, the door opened, and men stationed around with torches. They walked into the cage.
